COMPANY: GS Construction
SERVICE: Commercial Building

▼ A GOLDEN HOUR DUSK PHOTOGRAPHY OF EXTERIOR - We took advantage of the 40-minute window of soft natural light and pink sky tone to capture this corporate building and created a warm inviting atmosphere by using discreet lighting. The photographs were compiled into a full-color advertisement and published in a glossy magazine.

CLIENT'S FEEDBACK: The client was pleased to learn that his advertisement caught the eyes of onlookers and he received compliments from the magazine's editorial staff.
