ULTRA LIGHTWEIGHT HUNTING CHAIR

DEAD REST 360° SWIVEL
 Manifold Adjustments
 7-STEP SETUP
 5.5 Kg

AIMING POSITIONS

AVAILABLE IN STORE

HIT YOUR TARGET
 All-in-one... No need to carry separate rests and chairs out to the hunting field or shooting range. An all-inclusive hunting chair with a built-in post to support your weapon in front onto a swing arm, which also enables left and right hand shooting.

Accuracy increased - The EZZE AIM chair provides comfort and bench rest accuracy increased. You have an extra support post at the back called a 'back support' that can be used as a supportive foot to provide your accuracy when sighting your weapon.

Swivel action - A 360° swivel action allows a real-time range with minimal body movement to get you on target no matter where it may be.

Lightweight - The lightweight aluminum frame makes it hard to carry over long distances by hand or over your shoulders. It weighs approximately 5.5KG (12 pounds).

AIMING POSITIONS

1 Standup position
 2 Free position
 3 Back support position

Removable Waterproof Seat Covers in 3 colours
 beige
 black
 Camouflage
